

Ashish R Soni

IT Professional with 20+ years of insightful experience looking for senior leadership role in Software Delivery/Technical Product Management, Sr. Automation QA Architect for AWS micro-services solution ,Performance Test Engg, Cumulative experience in Digital Transformation with AI, Big Data Solution, Generative AI Architect/Solutions for data tuning strategies.

Technical Manager roles performed since last 8 years

Defining Test Strategy, Test Plan, Approach, estimation plan for various type of testing like Functional, Integration, Automation E2E Regression. , UAT, Browser compatibility testing, etc. Hands on testing of Microservices REST API and SOAP, Cypress, Data Pipelines, ML model performance testing with proficiency in Automation testing using Cucumber (BDD) framework integration with TestNG, Junit, Jira Xray.

Proven Expertise In

- Project Management • Product Development Lifecycle • Test Management and Test/QA Consulting • Digital Assurance (Strategy and Implementation) using GitHub Copilot•
- People Management • Estimation and planning.

Highlights:

- ⇒ Managing 100 TB unstructured documents in MongoDB Atlas vector search interface
- ⇒ Gen AI generic Platform Enablement for Nice Enterprise Business Application.
- ⇒ Cloud tools Built an AI system using a graph-based RAG engine
- ⇒ Test data generation using ChatGP giving meta data "json" input file and transaction.
- ⇒ Leveraging the analytical capabilities to direct the processes of the client organizations towards efficiency enhancement and **data driven predictive** services.
- ⇒ Assisting in market mix model project, **promotional analytics and cost optimization**.

Major Achievement

- ⇒ Build SaaS based script less automation tool for Nice providing End-To-End test capabilities to support Junit test, Functional Automation, for Services (Rest API, Micro Service (AWS) resources and WSDL web service API, performance script automation, Security scan (Blackduck & Veracode, Invite) automation. Test Data Management (TDM) integrated.
- ⇒ Managed Testing solution with revenues ranging from \$2M to \$4.5M.
- ⇒ Hands on experience in microservices development, Data Analytics solution.
- ⇒ Hands on experience in different automation framework Cucumber (BDD), Cypress using java and Robot framework using python.
- ⇒ SME in enterprise IFM / SAM/ WLF product operation & big-data management capability for Fraud/AML solution.
- ⇒ Hands on experience in debugging the issue in complex/distributed enterprise product setup.
- ⇒ Hands on experience in automate REST API – Postman with Newman plugin
- ⇒ Hands on expertise in setting up DevOps automation using tools – Jenkins SonarQube , Splunk, Coralogic, Pager-duty.
- ⇒ Good knowledge to setup to configure Jenkins(CI/CD) groovy, with PowerShell script, Linux script .
- ⇒ Executed a Data-Driven Strategy to enhance decision-making in product-related calls.
- ⇒ Planning and defining complex AWS cloud provisioning (IaC multi , HR, DR) services.

- ⇒ Coach and mentored 100+ associates for Zensar Technologies
- ⇒ Build Functional Testing (Performance Testing & Engineering, Application Testing) capabilities.
- ⇒ Expertise in enabling Fraud Quality Analyst, Intelligent Automation, Cognitive QA

Career Summary

I am working in the IT Industry for more than 20 years' experience with over 4 years' in development, 7 years' in Automation architect and 8 years' in Project/Delivery Management, Test Management, Agile Practice, End to End Test automation solution provider.

My career has spanned across multiple roles and I have major experience of directly working with onsite customers (South Africa, UK and USA). I have managed large deliveries for some of our key BFSI, Retail customers and have consistent track record of delivering significant positive impact on key KPIs, revenue, gross margin and customer satisfaction.

I have been part of the strategic teams to build futuristic testing solutions. I am a leader who believes in "leading from the front" and always been a great team man and motivator. With large array of skills and strong interpersonal skills I am always ready to roll up my sleeves to deliver the task and achieving the business objectives.

Core Competencies

- ⇒ Hands on Experience with Software Quality, DevOps areas
- ⇒ Role of Lean and Automation Transformation architect
- ⇒ Building solution across testing Life cycle in Digital Testing, Intelligent Automation, Cognitive QA etc.
- ⇒ SME in Strategy, Process consultancy, Delivery Excellence, Operation excellence and Competency development
- ⇒ Engaging with Industry Analyst – Gartner, Everest for vendor briefings and solution overview
- ⇒ Delivered end to end solutions for all QA phases like Functional, Automation, Cross Browser, UX, Performance and Security using Agile Methodologies in Agile methodologies
- ⇒ Worked as QA Architect, Product Architect for multiple Testing Platforms - “Cloud based Regression Automation Testing Tools”, Product development and Testing.
- ⇒ Expert in futuristic testing with AI/ML driven, Shift-left, No Code Automation and Cloud/SaaS based Testing
- ⇒ Strong experience in Retail and provided various testing solutions for applications built on ecommerce platforms like Hybris, SFDC, PEGA and Magento.
- ⇒ Delivered multiple solutions for complex testing problems like pdf validations, Large data sets, email validations, multi node-multi browser-multi platforms testing
- ⇒ Successfully implemented BDD methodologies at Nice.
- ⇒ Implemented end to end CI/CD and CA process across multiple projects.
- ⇒ Strong experience with Application Security Architect & Assessment (SAST, DAST, IAST, MAST, Active and Passive), Architecture review from Security aspect, SecDevOps implementation.
- ⇒ Strong Experience in Engineering – Capacity Planning, Load Modelling, Strategy & Planning, Analysis, Reporting and presenting to stakeholders, Root Cause Analysis through deep diagnostics & Profiling.
- ⇒ Responsible for people management, mentoring and career development process for Shanghai team including delivering performance review, training, recruiting.
- ⇒ **ML Model development** is done based on specific Customer’s solution.
- ⇒ Implemented Tableau dashboards for **Model performance, Data Health monitoring (DataOps), Data Alerting Framework, Data Anomalies, and cross-account model comparisons.**

Awards and Accolades

- ⇒ Best ESAT Score (90%) among Peers 2022-2023.
- ⇒ Best Innovative Team Award for Innovation for Yr 2012 & 2019.
- ⇒ Awarded with Employee of the Year for new product innovation

Leadership Strengths

Problem Solving	People Mgmt.
Quick Learner	Transparency
Goal Orientation	Team Motivation
Communication	Conflict Mgmt.
Positive Attitude	Creativity
Vendor Mgmt.	Stakeholder Mgmt.

Technology Landscape

Automation framework – Cucumber (BDD), Selenium WebDriver, Robot Framework, TestNG, JUnit, TQTP/UFT, Test Complete, QuerySurge.

Application Security – Fortify, Web Inspect, Veracode, SonarQube, Blackduck and Invite.

ML Model : Supervised Learning (Linear Regression, Decision Tree, Random Forest, XGBoost)

Analytical Tools: Tableau, pySpark, Numpy, Pandas

API /REST API– POSTMAN, SOAP UI Pro, JMeter

Data Processing: pySpark, Hadoop, Kafka, Glue, AWS Batch Service.

AWS Log Tools: DataDog, Coralogix,

AWS Cloud : S3,SQS, SNS, EC2, Step Function, Athena, Lambda, Batches,.

Programming – Java, Python, VB, Shell Script, Power Shell Script, DOS Batch Script, VB Script, Java Script, Groovy

Database – MS-SQL Server, Oracle , MySQL, Postgres SQL, Hive, Mongo DB

Verticals

BFSI, Manufacturing, Retail, Health Care & Life Science

Work Experience – Key Highlights of my 8+ years' journey in Nice Actimize

Nice–Technical Manager from 10th April 2017 to till date

- 30% Reduction in testing life cycle through GEN AI in Manual TCs design, Test data, Automation and security Testing
- Define, Build & Rollout Test processes with CI/CD integration with enhanced metrics, governance & compliance
- Efficiently managed high demanding business seamlessly and set up value driven delivery model
- Setting up Domain knowledge management framework
- Attaining 100% resource utilization to reduce effective Testing Capability cost by almost ~21%.
- Drive Innovation for automation to reduce QA cost and improved Quality without changing timeline.
- Product delivery Deep-dive in-order to recommend process streamlining and optimization of SOP in order to deliver on-time with better quality by increasing higher test coverage using prioritization
- Provided Test automation approach for different NICE product.
- Performing POC for DR, High resilience and compatibility check of Actimize Watch cloud solution.
- Ability to work with custom and standard Robot Framework libraries.
- Develop automation test scripts using Robot Framework.
- Excellent communication skills for effective collaboration with the development team.
- Defined and Streamline QA processes as needed for new and existing projects
- Ensured appropriate software testing tools are selected to meet these goals
- Technical guidance to team into Data Driven Automation Framework in Cucumber (BDD) with Rest Assured & TestNG.
- Strong skill on descriptive programming and Java and Python script using selenium
- Designed cross skilling training program for different technology like Java, Python REST API testing, AWS cloud.
- Implementation of compliance and implementation of PII, GDPR data protection regulation
- Monitors and product status on an ongoing basis necessary to meet project deadlines.

Work Experience – Key Highlights of my 10+ years' journey in Zensar Technologies Ltd

Zensar Technologies Ltd. – Senior Test lead (PM, Project Coordinator) from October' 2006 – 3rd April 2017

- Build scalable testing model for Managed & Shared Services and delivers all functional testing.
- Establishing continuous learning culture as part of Testing Practice initiative
- Provided Testing solution, approach to pre-sales counter part as part of RFP/RFI response .
- Experience in interacting with client independently for daily/weekly/monthly status.
- Strong interpersonal skills monitoring and mentoring & evaluate team performance.
- Continuous monitoring and mentoring of automation testing team & DevOps team.
- Review of defect reports, traceability matrix, test coverage report and test cases.
- Providing Testing Solution, framework, strategy for Functional and non-functional testing
- Build and streamline CI/CD and Continuous Automation (CA) for 10+ customers
- Organize the status meetings and send the Status Report (Daily, Weekly etc.) to the Client
- Immediate notification/escalation of problems to the Project stakeholders / Client.
- Strong troubleshooting skills and experience with understanding / providing technical solutions.
- Develops and implements methods for cost, effort and milestones of IT Quality activities.

Magic Software Enterprise (I) Pvt Ltd ,Pune – Sr QA**From March' 2004 to October' 2006**

- Ability to understand the functionality of the tests being conducted and write meaningful test scripts and cases.
 - Reporting/Escalation of testing discrepancies, issues and/or questions to appropriate contact.
 - Ensure that all testing documentation is audit compliant.
 - Assist in preparing and reviewing the process test plan
 - Review and validate test results and defect reported by the QA Testers
 - Defect and issue identification, logging, tracking, resolution and reporting
 - Tasks status communication to Leadership Team (QA Team Manager)
 - Ensure testing commitments are met and communicate potential impacts to target dates to the LOB
 - Ability to work independently & challenge the Line of business with the gaps identified as applicable.
-

Education:

- Master's degree in Computer Management (MCM) from Nagpur University.
- Master's degree in Business Administration (MBA) from IGNOU Delhi,
- Bachelor's Degree in Commerce from Nagpur University.

Certification:

- AWS Certified Solution Architect.
- Certification Payment Processing Domain (CPP).
- Actimize Certified Integrated Fraud Management(IFM) Implementation Engineer.
- Actimize Certified Fraud Quality Manager for FRAML development & Implementation.
- Certification VB.NET and ASP.NET from KICIT, Nagpur.
- Honors Diploma in System Management from NIIT, Nagpur.
- Certification "O" level from DOEACC, New Delhi.
