in <https://www.linkedin.com/in/anubhav-gupta-19709363/>

Accomplished and Transformational Professional with expertise in Data Science, Big Data, Project Mgt. and Technical Leadership; targeting senior roles with an organization of repute; preferably in India/ Overseas

Core Competencies

Strategic Planning & Integration

Product Strategy/ Roadmaps

Business/ Artificial Intelligence

Big Data/ Data Engineering

ML/GenAI Architect

Time Series Analysis & Forecasting

Statistical Analysis/ Data Modelling/ Deep Learning

Cloud Computing (AWS, GCP)

Generative AI / Fine Tuning

Data Wrangling Sol.

Operations Excellence

End-to-End Roadmaps

Mentoring & Knowledge Sharing

Database Designing

Data Quality and Governance

Agile / Scrum Methodology

Certifications

- AWS Certified Machine Learning Specialty.
- PMP certified.
- AWS Certified Cloud Practitioner.
- Certification Payment Processing Domain (CPP) – MVLCO
- CSM- Certified Scrum Master.

Profile Summary

- A versatile & highly accomplished Data & AI professional with over 17 years of cumulative experience in Digital Transformation with AI, Cloud Computing, Big Data sol, Generative AI Architect/Solutions and its fine-tuning strategies.
- Collaborated closely with senior executives (CXO) for effective project communications at all organizational levels.
- Acted as a **technical evangelist**, promoting the adoption of cutting-edge technologies and best practices within the organization and the broader tech community.
- **High integrity & Energetic leader**, leading & motivating individuals to maximize levels of productivity; **customer centric Approach**, managing workforce to exceed customer expectations in delivery of committed services. Successfully Implemented diverse AI and machine learning algorithms, contributing to **daily frauds value detection of \$6 trillion**.
- Crafted RFPs, RFIs, and POCs for potential clients.
- Spearheaded **cost-benefit analyses, risk assessments**, and resource planning
- Designed and implemented **innovative software architectures** that improved system **performance and scalability**, ensuring alignment with **business objectives** and technological advancements.
- Led a digital transformation strategy that resulted in a **40% increase in operational efficiency** across the company.
- Developed and executed an IT roadmap that aligned with corporate growth objectives, supporting a **20% expansion** of the company's **tech workforce**.
- Oversaw a **\$5M budget** and directed IT strategies that delivered a **300% ROI** through system enhancements and workforce automation.

Technical Skills

- **Machine Learning:** Supervised Learning (Logistic, Linear, Decision Tree, Random Forest, XGBoost, Computer Vision), Clustering, NLP, RNN, LLM(Llama, Claude, Mixtral, OpenAI models), PyTorch, TensorFlow, LangChain, RAG, Embeddings.
- **Data Processing:** Apache Spark, Hadoop, Kafka, Glue, EMR, AWS Batch Service.
- **Cloud Service:** EKS, ECS, AWS SageMaker, AWS Fargate, Lambda, SQS, SNS, EC2, Step Function, Athena, Redshift, CloudWatch, EventBridge, Kinesis.
- **Databases:** SQL, MongoDB, DynamoDB, PineCone, CromaDB, AstraDB, FAISS
- **Languages:** Python, Java, C, C++.
- **Analytical tools:** Tableau, PowerBI, Spark, Numpy, Pandas, Seaborn.
- **Reporting Tools:** DataDog, Coralogix, Pileus.
- **Other Tools:** Terraform, Jira, Jenkins, SonarQube, Qilo(OKR), HuggingFace, Rapids(Nvidia).

Career Timeline

2007-14	2015-18	2018-21	2021-24	2024-Present
SpiceDigital Pvt. Ltd	BlackNgreen Pvt. Ltd.	PeopleStrong Pvt. Ltd	Nice Actimize Pvt. Ltd.	Incedo Technology Ltd.

Work Experience

Jun'24 – Till Date | Associate Director (Data & AI)– Hi-Tech | **Incedo Tech. LTD.**

Ongoing Project:

- Incedo BrainSpark | Virtual assistance Chatbot | Document AI

Awards

- Won Impact Award for innovative solution for Yr 2023
- Best ESAT Score (92%) among Peers 2022-2023.
- Best Team consecutively each quarter for Yr 2021-2022
- Airtel Best Innovative Product Yr. 2017 on customer retention.
- Best Innovative Team Award for Innovation for Yr 2015 & 2018.
- Recognition on developing SDP/Billing framework for Telecom IN.
- Awarded with Employee of the Year for new product innovation.

Education

- **Post Graduate program in Artificial Intelligence and Machine Learning**
University of Texas at Austin
2021
- **Bachelor of Technology in Computer Science**
K.U.K University
2007

Soft Skills

Negotiation & Conflict Management

Visionary & Decision Making

Good Listener & Communicator

Team Building & Interpersonal Skills

Leadership & Delegation

Time Management & Prioritization

GenAI generic platform Enablement for Enterprise Business Application.

Environment: AWS services, SageMaker, LangChain, LLM/SLM models, Natural Language Processing (NLP), XGBoost, DynamoDB, Athena, AWS Batch Service, S3, Python, PySpark, Jira, SQL, Streamlit, FAISS, React, Fast API.

Highlights:

- Built an AI system using a **graph-based RAG engine** and cloud tools to manage 2.5M+ structured/unstructured documents with a chatbot search interface.
- Designed a **GenAI-based threat modeling solution** using **STRIDE & DREAD frameworks** for vulnerability reporting.
- Developed **Conversational AI** with **Speech-to-Text** for **text summarization**, insights from meeting minutes, and **automated task assignments**.

Key Result Areas:

- Achieved **85% reduction in document retrieval time** using a **chatbot-enabled interface**, improving operational efficiency.
- Identified and reported **150+ vulnerabilities** within the first quarter, enhancing system security and compliance.
- Automated **70% of meeting action item assignments** and reduced manual effort by 60%, streamlining decision-making and task management processes.

Apr'21 - Jan'24 | Tech Manager (DS/Analytics)– Financial Fraud Detection | **Nice Actimize Pvt. Ltd.**

Major Project Led:

- **Interactive Fraud Management | Chatbot | SAR Narrative**

Environment: AWS services, SageMaker, LangChain, LLM models, Natural Language Processing (NLP), ML Algorithms (Regression, Ensemble Techniques, SVM, Decision Tree, Clustering, LSTM, Neural Network), DynamoDB, Athena, EKS, Generative AI, LSTM, Data Wrangling, S3, Glue, Tableau, Python, PySpark, Jira, SQL, Streamlit, Jenkins.

Highlights:

- **Engineered & designed** a comprehensive End-to-End Fraud detection Solution encompassing **Data Ingestion, Data wrangling, Data Visualization (Tableau/PowerBI), Data Modeling, Model Development, financial modeling, and deployment on EKS cluster.**
- Mentored a cross-functional team of 35+ IT professionals (**Data Scientist, MLOPs, DevOps, Visualization Team, Data Engineers**), achieving a 15% year-over-year improvement in project completion rates and a 50% reduction in employee turnover.
- Monitored a daily volume of **4 billion transactions for fraud detection.**
- **ML Model development** is done based on specific Customer's solution.
- **Transfer Learning** with CIM models; Multi-modal & Rule Recommendation Engine.
- **Fine-tuning the LLM** models for domain specific training.
- Implemented Tableau dashboards for **Data Anomalies, Model performance, Data Health monitoring (DataOps), Data Alerting Framework** and **cross-account model comparisons.**

Key Result Areas:

- Leveraging the analytical capabilities to direct the processes of the client organizations towards efficiency enhancement and **data driven predictive policing** to offer better citizen centric services
- Assisting in market mix model project, **promotional analytics and cost optimization.**
- Acting as a liaison between Business / Functional areas and technology to ensure that data related business requirements for protecting sensitive data are clearly defined, communicated, well understood and considered as part of operational prioritization.

Nov'18 - Mar'21 | Engineering Manager – Business & Digital Technologies & Solution Architect | **PeopleStrong Pvt. Ltd.**

Major Project Led:

- **Alt-Payroll | RPA Solution**

Environment: ML Algorithms (Regression, Ensemble Techniques, SVM, Decision Tree), Python, Automata, Data Visualization, NLP, Jira, OTRS, Lucid charts, Kafka, SQL, Deep Learning, PowerBI, Cloud Computing (GCP), PySpark, Data Lake, Data Modelling, Terraform.

Highlights:

- Led a diverse team of over 30+ individuals, each possessing distinct skill sets and expertise.
- Implement **Deep Learning (RNN)** algorithms for **Sentiment Analysis** and **Chatbot.**

Personal Details

Date of Birth: 8th Oct 1985

Languages Known: English & Hindi

Address: Gurugram, Haryana-122017

- Formulated and executed the Micro Service architecture for Big Data, designed for ETL.
- Performed **Predictive Analysis and created visualizations using PowerBI** for stakeholders.
- Managed the **RPA system**, overseeing processes related to Payroll, reimbursements, medical bills, LTA, and Investments.
- Executed a **Data-Driven Strategy** to enhance decision-making in product-related calls.

Apr'15 - Oct'18 | Technical Manager – R&D Advanced Analytics & Big Data | BlackNgreen Pvt. Ltd.

Major Projects Led:

- **BruTalk**

Environment: ML Algorithms (Regression, Ensemble Techniques, SVM, Decision Tree), Python, Apache Tomcat , Telephony, Statistical Modeling, Data Visualization, SS7, SIP, Monitoring Framework, AWS, Apache web server 2.4.6, ActiveMQ, JMeter, MongoDB, Redis, Scalable Architecture.

- **Adcom | Customer Segmentation | Cross Selling Platform**

Environment: ML Algorithms (Supervised learning algo), Data Mining, Data Wrangling, EDA, Analytics, Hadoop, JAVA, Apache Tomcat , SIP, VOIP, CAPV2, CS1+, ActiveMQ, JMeter, MongoDB.

Jul'07 - Dec'14 | Telecommunication & Billing | SpiceDigital Pvt. Ltd. | Mobisoc Pvt. Ltd.

Growth Path: Mar'11 – Dec'14 | Tech Manager | Jul'07 – Aug'10 | Software Engineer –

Major Projects Led:

- **Live Feeds, CRBT & Music On Demand**

Environment: Java, Data Mining, SQL, Shell scripting, Analytics & Reporting, USSD, RMI, Telephony, Socket Programming.
