

Professional Summary:

- Self-motivated and AWS certified total 16+ years of experience as Senior Quality Expert /Manager - Automation Testing
- 7+ years' experience as QA Management/Project lead handled team size range 3 to 20 size.
- Global Exposure and experience in executing projects in countries - USA, UK, SA and India.
- 8+ years' experience extensive knowledge of complete SDLC and STLC and majority of experience in Agile methodologies.
- 5 years' experience in Data centric, Data Migration, ETL testing, SFDC migration testing.
- 5 years of experience in Agile Scrum/Safe software delivery.
- 2+ years of experience into Python, AWS development and Data Analytics/ML model testing.
- 1+ years of experience into ML model (algorithm data driven) testing. Jenkins CI pipeline.
- 2+ years of experience preparing and writing RFP Responses, Testing Approach for different type of testing project.
- Extensive experience in project management including handling multiple projects. Experience in preparing quality graphs, budget, risks and mitigation plans.
- Experience in mapping business requirements into test specification requirements, designing test cost estimations, customizing test scope & approach.
- Strong knowledge of requirements analysis, requirements traceability matrix, test strategy, test planning, test design, test automation tools, test effort estimation, test budgeting, scheduling and risk management, test plans, test cases and test scripts based on defined testing standards, test execution, defect management, reporting.
- Strong hands-on expertise of AWS cloud platforms or AWS Enterprise product testing,
- Hands on experience on debugging the issue in complex/distributed enterprise product setup. Experience in Python test automation development, Performance testing & Load testing.
- Deep understanding and experience of scalable architecting, development and deployment of end to end distributed enterprise applications
- Experience with SCRUM/Agile process, project planning, tracking, monitoring and risk management.
- Experience in developing and coaching test automation team in building Data Driven and Hybrid framework using Selenium Web-driver and Cucumber(BDD) ,
- Extensive hands on Test Management tool QC, Test Director, Jira Xray, Rallydev.
- Experience in Big Data Hadoop for data centric using Pyspark.
- Experience with automated to AWS SDK java using cucumber BDD frameworks.
- Experience with automated to Postman tool , Swagger and Newman tool.
- Good exposure of ML algorithms PMML base evaluator ML model testing.

Team Management:

- Manage end-to-end complex test workstream.
- Monitoring and mentoring of testing team and & evaluate their performance
- Immediate notification/escalation of problems to the Director/Project Manager/Client.
- Excellent communication and leadership qualities with very good analytical capability
- Possessing a proven ability to lead project teams to successfully deliver agreed upon solutions of the highest quality, often in complex and challenging customer environments.
- Experience in interacting with client independently.

Education:

- Pursuing PhD. under Faculty of Commerce & Management from Nagpur University.
- Master's degree in Computer Management (M.C.M) from Nagpur University.
- Bachelor's Degree in Commerce from Nagpur University.

Certification:

- AWS Certified Developer - Associate certification.
- Certification VB.NET and ASP.NET from KICIT, Nagpur.
- Honors Diploma in System Management from NIIT, Nagpur.
- Certification "O" level from DOEACC, New Delhi.

Internal Companies Certification:

- NICE Certified Professional for IFM (Actimize) and E-RCM.
- NICE Certified Professional for Actimize Watch Cloud Development & Support Engineer.
- Zensar Certified Professional SFDC QA Consultant.
- Zensar Certified Professional for Automation Test Engineer.
- Zensar Certified Banking & Insurance Domain Professional.

Total Work Experience (16 years):

Company Name	Name	From Date	To Date
Current Company	NICE Interactive Solutions India Pvt Ltd	10-April-2017	till date
Previous Company	Zensar Technologies Ltd, Pune.	23-Oct-2006	03-April-2017
	Sapient Corporation, Bangalore	19-Jun-2006	17-Oct-2006
	Magic Software Enterprise India Pvt. Ltd. Pune	March-2004	14-Jun-2006

Competencies:

Category	Skills
Test /Defect Management Tool	Quality Centre 10.2, Test Director 7.3,Rational Test Manger, Clear Quest , Test Link 1.7,JIRA,Mantis and PVCS Tracker.
Automation Testing Tool	Selenium Webdriver 2.0, TestNG, QTP and SOAP UI Pro
DevOps (CI/CD, Artifactory)	Jenkins, JFrog, GitLab,GitBucket,
Database	Oracle,MsSQL,DB2 and Pervasive SQL
Programming Language	AWS SDK Java, Python, Groovy,VB.Net,VB6,D2k,Foxpro
Other Supporting Software Tools	TFS 2010, VSS, XMLSpy, Star UML and TOAD,Postman,Swagger
Operating System	Windows, Linux & Unix.
Domain	Banking (Fraud, AML, Payment), Insurance (Annuities & Health), Retail, Manufacturing and Utility.
AWS Component's	EC2,S3,Policy,Athena,API Gateway, Lambda, Step Function,

Professional Experience Project Detail:

Product Name /Team/Location – IFM – Actimize Watch / Analytics Fraud R&D/ Pune.

Duration: 2 years & 10 months from 10th April,2017 to till date.

Role : QA Project Lead (QA Expert)

Designation: Senior Specialist QA Engineer (Data Analytics QA)

Technologies– AWS Cloud, KNIME, Python (Jupyter) ,PySpark, Java, csv, json files.

Achievement Key: member of a Cloud based Data Analytics/Data Engg/IaaS platform development team for Actimize Watch IFM/AML. Currently live 27 major bank are onboarded on new product. Data scientist are using data tuning existing model or new advance ML model generation for testing.

Contribution / Highlights: Involved in AWS cloud development for ML model data pipe for Fraud/AML model building. Setup and configure Quality and CI/CD environment process. Validated machine learning model testing and performance result on different business data-set. Hands on cloud testing for micro service testing.

- Work on EC2, S3, DynamoDB, Lambda, IAM Roles, Policy, Step function, API Gateway.
- Hands-on experience on KIs development and KIs testing for ML model.
- Tested score card model (IFM, JTA) - KNIME workflow.
- Hands-on Python packages like boto, boto3, Pandas, NumPy.
- Experience implementing AWS services and following 4N structure environment.
- Work with Data Scientists and Product Managers to frame a problem, both understanding or mathematically and in the business context.
- Work on different stages of machine learning model development & testing.
 - Data preparation & data validation testing.
 - Data centric automation test development using AWS SDK Java Cucumber (BDD).
 - Data visualization using Tableau, Jupyter notebook.
 - Feature engineering and new feature development.
 - Validate model data processing - testing
 - Validate model tuning - testing
 - Validate model deployment process- testing into product
 - Test data generation for model testing
 - Monitor & evaluate different stages of data performance after model development.
 - Deploy validated algorithms into Actimize IFM platform.
 - Python code development for AWS Integrated data pipe-line
 - AWS SDK Java Cucumber (BDD) automation test development.

Product Name /Team/Location – IT Marketing QA /Cisco ODC/ Pune.

Duration: 11 months 11th January 2016 to 31st March 2017

Role : Project Lead /QA Project Lead

Technologies– Eloqua, Oracle, Cassandra, Hadoop (Big Data), Selenium Webdriver, TestNG, ANT.

Contribution / Highlights: Involved in Eloqua implementation and data migration with NGCC,SFDC and develop the automation test scripts .Manage day-to-day test lead level activities. Did POC for Query Surge and Testing-Whiz tool for automating Big Data testing.

- Design and implementation of automation test development hybrid framework(java).
- Work cross functionally in an Agile/Scrum environment alongside Development and Product Management to deliver high quality solutions.
- Develop the scripts by using Java with Selenium Webdriver 2.
- Work closely with developers and product owners to understand full scope of features, perform extensive testing to ensure coverage and quality.
- Work with the development and QA Teams to scale up test automation practices, and provide robust releases.
- Work with the development team to establish QA best practices and identify key area to automate.
- Provide direction and guidance for test process improvements and establishing policies.
- Develop presentations & proposals, perform customer presentations
- Coordination of development of automated Test suites.
- Monitor project progress and make adjustments as needed.

Project / Client Name / Location– SFDC CRM Data Migration phase2/ Trimble /Pune.

Duration: 12 months - January 2015 to December 2015.

Role : Scrum Master/ Test Lead

Technologies – Salesforce.com, TFS ,FCH, Selenium Webdriver, TestNG, Jenkins and ANT.

Contribution / Highlights: Involved as scrum master into data migrated from legacy (Pivotal system) to SFDC and integrated with TFS 2012,

- Identify the test cases needs to automate.
- Implementation of CI/CD integration tools Jenkins
- Design and Implemented the Automated test development (Data Driven) framework using java.
- Handling team to QA team size of 8 tester.
- Facilitate the Sprint Planning session
- Capture end-of-day metrics and prepare Burn-Down and Burn-Up Charts for Daily Standup.
- Remove barriers and impediments that are preventing the team from completing work
- Schedule and facilitate Release Planning sessions for future releases based on the team's cadence.
- Ensure that the team follows their process and pursues continuous innovation in their practices

Project / Client Name / Location– Application & Data Migration project/ CREE / Pune.

Duration: 24 months from 30th November 2012 to December 2014.

Role : Test Lead

Technologies –VB.Net, MS SQL, Net Framework 3.5, TFS 2010, Oracle Apps(OM) Selenium Webdriver, Maven, Git Stacks.

Contribution / Highlights: Involved in writing of Functional, Database test cases and business scenarios for Engineering Change (EC) applications and identify the area/gap for re-use .Net code to use as template in any other projects. Rresponsible for test planning, test cases writing, execution and develop automation test script

- Prepare Functional, Database test cases for Engineering Change (EC)
- Identify the test cases needs to automate.
- Develop the scripts by using Java with Selenium Webdriver.
- Design and develop the test scripts on hybrid framework.
- Handling team to QA team size of 6 tester.

Project / Client Name / Location – Annuity application (AQUA, WEQS) testing/ UK & Pune.

Duration : 36 months from 12th November 2009 to 29th September 2012

Role : Test Lead /Senior Test Analyst

Technologies – Power Builder, Thunderhead, XML Spy, TOAD(Oracle), QC 10.2

Contribution / Highlights: Involved in Functional, Database, Regression and System Integration testing of AQUA, WEQS the Annuity quote application which was based on the .Net framework. I was responsible for Test Planning, Review test scripts including test data creation, test execution, defect logging and tracking the same to closure. Evaluated open source tool Diffdoc, Excel Compare, SOAP UI pro for reducing test execution efforts.

Project / Client Name / Location – Output Engine / Assurant Health /Milwaukee and Pune.

Duration : 7 months from March 2009 to 31 October 2009

Role : Individual Contributor

Technologies –IBM Mainframe, C#.Net, DB2, XML Spy, xDesignert.

Contribution / Highlights: Involved in functional and document migration testing to ensure the Output Engine document system to generate policy documents in PDF file format for printing. All major system interacted with Output Engine system to generate automatically policy packets .

Request can received from Agent portal, Web services. Responsible to check impact of the new features or existing features in product for functional, regression testing and preparing test summary report

Project / Client Name / Location /Role – Range Planner /Marks & Spencer / UK and Pune.

Duration: : 18 months from 24th Oct 2006 to 30 April 2008

Role : Senior Test Analyst

Technologies – .Net Framework 2.0 , C#.Net, MS SQL, Mercury Quality Centre 8.2

Contribution / Highlights : Involved in functional, database, end to end and system integration testing to ensure the major testing of Range Planner application. Follow Agile Scrum methodology –attend daily scrum meeting,

Project / Client Name / Location– Expert and Express/ Filogix/Sapient Corporation/Bangalore.

Duration: Around 4 months from 20 June 06 to 17th Oct 2006

Role : QA level II

Technologies –Java,Hybernet,C++,SQL Server

Contribution / Highlights: Involved in functional, regression and end to end testing mortgage online application testing for NBC.

Project / Client Name/ Location – eDeveloper & iBolt (EAI) / Magic Software / Pune,

Duration: 2 years and 6 months from January, 2004 to 14th June ,2006

Role: QC Engineer (Database testing team)

Technologies : Oracle, MS SQL, DB2, eDeveloper, iBolt and xml

Contribution / Highlights : Involved mainly in enterprise product testing , Functional, database and regression testing for database like Oracle, DB2 and MSSQL for eDeveloper 9.4 /10 enterprise product gateway testing.

Personal Details:

Actual Name		Ashish Ravindra Soni
Date of Birth		26th September,1978
Marital Status		Married
Permanent Address		Mr. Ashish R Soni A-404, Marvel Ideal Spacio , Undri Pisoli ,Pune-60
Language Known		English, Hindi, Marathi
