

Professional Summary:

- Total 16+ years of experience into software industry played different or multiple roles.
- 5+ years' experience as Project Manager/QA Lead handled team size range 3 to 20 size.
- Global Exposure and experience in executing projects in countries - USA, UK, SA and India
- 2+ years of experience into Python, AWS development and Data Analytics.
- 1+ years of experience into ML model (algorithm data driven) testing.
- 5+ years' experience extensive knowledge of complete SDLC and STLC and majority of experience in Agile methodologies.
- 4 years' experience in Data Migration (ETL), SFDC & content migration testing.
- 2+ years of experience preparing and writing RFP Responses, Testing Approach for different type of testing project.
- Manage end-to-end complex test workstream.
- Good knowledge with data analysis languages such as Python.
- Build highly parallelized, big-data, machine-learning applications in the AWS cloud.
- Delivered complex projects and products for major customers in various testing phases.
- Prepare Test Plan, Test Estimation, Traceability Matrix, Test Coverage Matrix and Test Closer Report, Risk Assessments, Risk log and Identifying Scope of testing in all stages.
- Experience in developing and coaching test automation team in building Data Driven and Hybrid framework using Selenium Web-driver.
- Extensive hands on Test Management tool QC, Test Director, JIRA, Mantis, Rallydev.
- Experience in Big Data Hadoop (MapR) testing using (TestingWhiz. Query Surge).
- Experience with automated deployments to AWS or other cloud infrastructures using popular frameworks and technologies.
- Proven track record delivering enterprise grade, scalable, secure & reliable software systems

Team Management:

- Monitor & evaluate the performance of QA team members.
- Monitoring and mentoring of Testing team members.
- Review of traceability matrix, test coverage, defect reports, and test cases.
- Immediate notification/escalation of problems to the Director/Project Manager/Client.
- Ability to independently deliver on projects, also juggling multiple tasks.
- Good verbal and written communication skills

Education:

- Master's degree in Computer Management (M.C.M) from Nagpur University.
- Bachelor's Degree in Commerce from Nagpur University.

Total Work Experience (15+ years):

Company Name	Name	From Date	To Date
Current Company	NICE Interactive Solutions India Pvt Ltd	10-April-2017	till date
Previous Company	Zensar Technologies Ltd, Pune.	23-Oct-2006	03-April-2017
Previous Company	Sapient Corporation, Bangalore	19-Jun-2006	17-Oct-2006
	Magic Software Enterprise India Pvt. Ltd. Pune	March-2004	14-Jun-2006

Professional Experience Project Detail:

Product Name /Team/Location –IFM – Actimize Watch / Analytics Fraud R&D/ Pune.

Duration: 2 years & 10 months from 10th April,2017 to till date.

Role : QA Expert

Designation: Senior Specialist QA Engineer (Data Analytics QA)

Technologies– AWS Cloud, Swage-maker, KNIME, Python (Jupyter) ,PySpark, Java, csv, json files.

Contribution / Highlights: Involved in AWS cloud infra development for model building data pipe for Fraud/AML model building. Setup and configure Quality and CI/CD environment process. Validated machine learning model testing and performance result on different business data-set.

- Work on EMR, EC2, S3, DynamoDB, Lambda, IAM Role, Policy, User, API Gateway.
- Hands-on Python packages like boto, boto3, pandas
- Hands-on experience on Ki development and Ki testing
- Tested score card model (IFM, JTA) - KNIME workflow.
- Work on different algorithm - Isolation Forest, Random Forest, XGBoost and SMOTE
- Experience implementing AWS services and following 4N structure environment.
- Work with Data Scientists and Product Managers to frame a problem, both understanding or mathematically and in the business context.
- Work on different stages of machine learning model development & testing.
 - Data preparation & data validation testing.
 - Data visualization using Tableau, Jupyter notebook.
 - Feature engineering and new feature development.
 - Validate model data processing - testing
 - Validate model tuning - testing
 - Validate model deployment process- testing into product
 - Test data generation for model testing
 - Monitor & evaluate different stages of data performance after model development .
 - Deploy validated algorithms into Actimize IFM platform.
 - Python code development for AWS Integrated data pipe-line
 - AWS SDK Java Cucumber (BDD) automation test development.

Project / Client Name / Location – IT Marketing QA /Cisco ODC/ Pune.

Duration: 11 months 11th January 2016 to 31st March 2017

Role : Project Lead

Technologies– Eloqua, Oracle, Cassandra, Hadoop (Big Data), Selenium Webdriver, TestNG, ANT.

Contribution / Highlights: Involved in Eloqua implementation and data migration with NGCC,SFDC and develop the automation test scripts .Manage day-to-day test lead level activities. Did POC for Query Surge and TestingWhiz tool for automating Big Data testing.

- Design and implementation of automation test development hybrid framework(java).
- Work cross functionally in an Agile/Scrum environment alongside Development and Product Management to deliver high quality solutions.
- Develop the scripts by using Java with Selenium Webdriver 2.
- Work closely with developers and product owners to understand full scope of features, perform extensive testing to ensure coverage and quality.
- Work with the development and QA Teams to scale up test automation practices, and provide robust releases.
- Work with the development team to establish QA best practices and identify key area to automate.
- Provide direction and guidance for test process improvements and establishing policies.
- Develop presentations & proposals, perform customer presentations
- Coordination of development of automated Test suites.
- Advise clients on attainable goals and develop project plans.
- Monitor project progress and make adjustments as needed.

Project / Client Name / Location– SFDC CRM data migration phase2/ Trimble /Pune.

Duration: 12 months January 2015 to December 2015.

Role : Sr Test Lead

Technologies – Salesforce.com, TFS ,FCH, Selenium Webdriver, TestNG, Jenkins and ANT.

Contribution / Highlights: Involved in Sales and Service data migrated from legacy (Pivotal system) to SFDC and integrated with TFS 2012, FCH, Email messaging and many other WebAPI. Responsible for preparing Test Approach, Test Planning, identify gap, develop the automation test scripts, review manual test cases and status reporting to client.

- Identify the test cases needs to automate.
- Develop the scripts by using Java with Selenium Webdriver.
- Implementation of CI/CD integration tools Jenkins /JForg
- Design and Implemented the Automated test development (Data Driven) framework using java.
- Handling team to QA team size of 8 tester.
- Review Manual test cases and Report the Bugs
- Monitor & evaluate the performance of team members.

Project / Client Name / Location– Application & Data Migration project/ CREE / Pune.

Duration: 24 months from 30th November 2012 to December 2014.

Role : Automation Test Analyst/Test Lead

Technologies –VB.Net, MS SQL, Net Framework 3.5, TFS 2010, Oracle Apps(OM) Selenium Webdriver, Maven, Git Stacks.

Contribution / Highlights: Involved in writing of Functional, Database test cases and business scenarios for Engineering Change (EC) applications and identify the area/gap for re-use .Net code to use as template in any other projects. Responsible for test planning, test cases writing, execution and develop automation test script

- Prepare Functional, Database test cases for Engineering Change (EC)
- Identify the test cases needs to automate.
- Develop the scripts by using Java with Selenium Webdriver.
- Design and develop the test scripts on hybrid framework.
- Handling team to QA team size of 6 tester.

Project / Client Name / Location – Annuity application (AQUA, WEQS) testing/ UK & Pune.

Duration : 36 months from 12th November 2009 to 29th September 2012

Role : Senior Test Analyst

Technologies – Power Builder, Thunderhead, XML Spy, TOAD(Oracle), QC 10.2

Contribution / Highlights: Involved in Functional, Database, Regression and System Integration testing of AQUA, WEQS the Annuity quote application which was based on the .Net framework. I was responsible for Test Planning, Review test scripts including test data creation, test execution, defect logging and tracking the same to closure. Evaluated open source tool Diffdoc, Excel Compare, SOAP UI pro for reducing test execution efforts.

Project / Client Name / Location – Output Engine / Assurant Health /Milwaukee and Pune.

Duration : 7 months from March 2009 to 31 October 2009

Role : Individual Contributor

Technologies –IBM Mainframe, C#.Net, DB2, XML Spy, xDesignert.

Contribution / Highlights: Involved in functional and document migration testing to ensure the Output Engine document system to generate policy documents in PDF file format for printing. All major system interacted with Output Engine system to generate automatically policy packets and individual document letters .Request can received from Agent portal, Web services. Responsible to check impact of the new features or existing features in product for functional, regression testing and preparing test summary report

Project / Client Name / Location/Role–Merchant Indexing payment system ,Silica / Pune.

Duration : 9 months from July 08 to February 2009

Role : Senior Test Engg

Technologies – Java, Oracle, TOAD,XML,C++, DB link library (AT&T)

Contribution / Highlights: Worked as BA to do UAT testing for enhancements change in Silica applications Responsible for requirement capturing, planning, test scripts preparation, test execution, defect logging and tracking the same to closure.

Project / Client Name / Location – Keystone P&C Re-Insurance / London (UK).

Technologies – C#.Net, Ms SQL, XML Spy

Role : Senior Test Engg

Contribution / Highlights: Involved in web based cross browser product for “Automobile Insurance agencies named “Renaissance R-3 insurance claim administration system” for testing the product includes Policy, Billing and Claim Administration System. Claim system includes FIR Generation, Conversion of FIR to Claim, Reserve Setup, Payments, Recoveries, Reporting and Automated Batch.. Responsible for requirement capturing, test cases preparation, test data creation, test execution, defect logging and tracking the same to closure.

Project / Client Name / Location /Role – Range Planner /Marks & Spencer / UK and Pune.

Duration: : 18 months from 24th Oct 2006 to 30 April 2008

Role : Senior Test Analyst

Technologies – .Net Framework 2.0 , C#.Net, MS SQL, Mercury Quality Centre 8.2

Contribution / Highlights : Involved in functional, database, end to end and system integration testing to ensure

the major testing of Range Planner application. Follow Agile Scrum methodology –attend daily scrum meeting,

Project / Client Name / Location– Expert and Express/ Filogix/Sapient Corporation/Bangalore.

Duration: Around 4 months from 20 June 06 to 17th Oct 2006

Role : QA level II

Technologies –Java,Hybernet,C++,SQL Server

Contribution / Highlights: Involved in functional, regression and end to end testing. Broker and Solicitor of National Bank of Canada NBC use Expert and Express application for mortgage property. Expert is B2C web-based application for adding new request by individual and Broker of Canada looking for Mortgaging properties. Express is B2B web-based application used by NBC employees.

Project / Client Name/ Location – eDeveloper & iBolt (EAI) / Magic Software / Pune,

Duration: 30 months from January, 2004 to 14th June ,2006

Role: QC Engineer (Database testing team)

Technologies : Oracle, MS SQL, DB2, eDeveloper, iBolt and xml

Contribution / Highlights : Involved mainly in database testing and regression testing using different database like Oracle, DB2 and MSSQL for eDeveloper 9.4 /10 system application gateway testing. Also involved in iBolt 2.5a (EAI) tool testing to provide easy solution using different wrapped components.

Certification:

- NICE Certified Professional for IFM (Actimize) and E-RCM.
- Zensar Certified Professional SFDC QA Consultant.
- Zensar Certified Professional for Automation Test Engineer.
- Zensar Certified Banking & Insurance Domain Professional.
- Certification VB.NET and ASP.NET from KICIT, Nagpur.
- Honors Diploma in System Management from NIIT, Nagpur.
- Certification "O" level from DOEACC, New Delhi.

Competencies:

Category	Skills
Test /Defect Management Tool	Quality Centre 10.2, Test Director 7.3,Rational Test Manger, Clear Quest , Test Link 1.7,JIRA,Mantis and PVCS Tracker.
Automation Testing Tool	Selenium Webdriver 2.0, TestNG, QTP and SOAP UI Pro
DevOps (CI/CD,Artifactory)	Jenkins, JFrog,
Database	Oracle,MsSQL,DB2 and Pervasive SQL
Programming Language	Java,VB.Net,VB6,D2k,Foxpro
Other Supporting Software Tools	TFS 2010, VSS, XMLSpy, Star UML and TOAD
Operating System	Windows, Linux & Unix.
Domain	Banking (Fraud, AML, Payment), Insurance (Annuities & Health), Retail, Manufacturing and Utility.

Personal Details :

Actual Name		Ashish Ravindra Soni
Date of Birth		26th September,1978
Marital Status		Married
Permanent Address		Mr. Ashish R Soni C-7/ 28, Nirmal Township, Kale padal Road, Sasane Nagar, Hadapsar, Pune-410028.
Language Known		English, Hindi, Marathi

Place: Pune
