

Total 16 years of software development expertise, resulting in strong combination of technical skill and honed business sense. Dedicated, organized, Self –starter, with the flexibility to adjust to multiple demands, shifting priorities, ambiguity and rapid change. A natural leader with high degree of flexibility and a proven ability in managing large team.

Acquired good technical and functional skills, In-depth understanding of SDLC processes and Agile processes and methodologies Scrum & Kanban. Well conversant with development processes and techniques. involved in highly integrated, globally diverse cross team managing. Engaged with multi-functional and multi-regional teams to create impactful products and services for delivery in-time. Good domain knowledge into BFSI, Retail and Manufacturing.

Strong experience in leading large scale transformational, global change along with people management, delivery management in the domain of Cloud Web Application microservices development and Big data migration using AWS cloud services. End-to-end project experience including user needs analysis, gap analysis, design, implementation, framework selection, technology selection.

Professional Summary:

- Working as Project Manager for past 6+ years handling portfolio of multiple services with team size of 12+ associates for a world's biggest fraud analytics enterprise product.
- Global Exposure and experience in executing projects in countries - USA, UK, SA and India.
- 8+ years' experience as project lead as AWS IaaS, PaaS, SaaS development.
- Expertise in enterprises AWS development and Data Analytics/ML model containerized testing.
- Experience in setting up new agile teams and transitioning teams from waterfall to agile
- Managed projects on due-diligence, POC development, application transition, application development, application maintenance, application support, e-learning.
- Good knowledge in setting up offshore development centers for first time offshoring clients by building big teams from ground up ability to lead cross-functional team members in a matrix managed environment to deliver projects on time.
- Experience in designed, implemented, Enterprise product operationalization and big-data management capability for BFSI.
- Experience in leading complex projects involving multiple geographically dispersed teams and geographically separated client teams in 8 countries with different time zones
- Strong hands-on in Application migration, Data migration, ETL testing, SFDC migration testing.
- Broad understanding of Agile process and experience in driving QA processes in Agile model.
- Strong experience in Cucumber (BDD) automation frameworks development .
- Understanding of automating REST API's testing using Postman Tool, Swagger, and Newman.
- Good hands-on implementation CI/CD using Jenkins/JFrog.
- Strong hands-on expertise in AWS cloud platforms and AWS cloud product development.
- Hands-on experience in debugging the issue in complex/distributed enterprise product setup.
- Strong analytical and troubleshooting skills, including requirements analysis.
- Help identify and implement new process improvements.

Team Management:

- Manage end-to-end complex workstream , handling and coaching team size of 15.
- Accountable for define Test strategy and execution of testing with senior stakeholders.
- Excellent communication and leadership qualities with very good analytical capability
- Possessing a proven ability to lead project teams to successfully deliver agreed-upon solutions of the highest quality, often in complex and challenging customer environments.
- Experience in insights and confidence to as leader.
- Strong interpersonal skills monitoring and mentoring & evaluate team performance.
- Collaborates with client leads and partners with business users and lead cross team delivery.
- Strong relationship and interacting with clients independently for product delivery status.

Total Work Experience (16 years):

Company Name	Name	From Date	To Date
Current Company	NICE Interactive Solutions India Pvt Ltd	10-April-2017	Till date
Previous Company	Zensar Technologies Ltd, Pune.	23-Oct-2006	03-April-2017
	Magic Software Enterprise India Pvt. Ltd. Pune	March-2004	14-Jun-2006

Education:

- PhD in Business Management (Commerce faculty) from Nagpur University.
- Master's degree in Computer Management (MCM) from Nagpur University.
- Master's degree in Business Administration (MBA) from IGNOU University.
- Bachelor's Degree in Commerce from Nagpur University.

Certification:

- AWS Certified Developer - Associate certification.
- Certification VB.NET and ASP.NET from KICIT, Nagpur.
- Honors Diploma in System Management (HSMP) from NIIT, Nagpur.
- Certification "O" level from DOEACC, New Delhi.

Internal Companies Certification:

- NICE Certified Professional for IFM (Actimize) and E-RCM.
- Certificated Salesforce Certified Platform Developer.
- Zensar Certified Professional for Automation Test Engineer.
- Zensar Certified Banking & Insurance Domain Professional.

Competencies:

Category	Skills
Test /Defect Management Tool	Quality Centre 10.2, Test Director 7.3, Rational Test Manger, Clear Quest, TestLink, JIRA, Mantis and PVCS Tracker.
Automation Testing Tool	Selenium Webdriver 2.0, TestNG, QTP and SOAP UI Pro
DevOps (CI/CD, Artifactory)	Jenkins, JFrog, Git, SVN
Database	Oracle, MsSQL, DB2 and Pervasive SQL
Programming Language	AWS SDK Java, Python, Groovy,VB.Net,VB6,D2k,Foxpro
Other Supporting Software Tools	TFS 2010, VSS, XMLSpy, Star UML and TOAD, Postman Tool, Swager
Operating System	Windows, Linux & Unix.
Domain	Banking (Fraud, AML, Payment), Insurance (Annuities & Health), Retail, Manufacturing and Utility.
AWS Components / services	EC2,S3, IAM User, Group, Policy, Athena, API Gateway, DynamoDB, Lambda, Step Function, Glue, VPC, Subnet

Professional Experience Project Detail:

Product Name /Team/Location –Actimize Watch IFM Fraud /AML Analytics R&D team/ Pune.

Duration: 4 years & 1 months from 10th April,2017 to till date.

Role : Project Lead /Manager

Technologies– AWS Cloud, micro service serverless, Python (Jupyter) , Java, Jenkins.

Key Result Areas:

- Project Management: Planning, scoping, effort estimation, tracking, creating and project, KPI setting, performance reviews (appraisals), mentoring & coaching, training.
- Projects: Managed projects on due-diligence, POC development, application transition, application development, application maintenance, application support and resource augmentation using various technologies (Java, Python & AWS Cloud)
- Proficiency in communication management tools (MS Office applications), project management tools (Jira, Bizwiz), Agile tools like Jira and Confluence, awareness of DevOps tools like Teams, Jenkins, Docker, Github and Jira.
- Account Management: Delivery, stakeholder, governance and escalation management.

Involved into enterprise cloud Data Engg and Data Analytics development for Fraud (IFM) / Anti Money Laundering (AML) . Integration setup and configuration with CI/CD environment process. Machine learning ML model performance test result with different test data-set and new feature engineering. Hands on developing AWS cloud micro-service project handling.

- Manage the testing artifacts and product delivery report on testing activity and metrics.
- Monitors and product status on an ongoing basis necessary to meet project deadlines.
- Evaluating quality process, managing risks / issues, and taking corrective actions.
- Experience implementing AWS services and following 4N structure environment.
- Solid experience in micro-service REST API server-less development for Fraud analytics.
- Strong knowledge of S3, DynamoDB, Lambda, IAM , Glue, Step Function, API Gateway.
- Understanding and implementation of security compliance, implementation of PII, GDPR protection regulation.
-

Product Name /Team/Location – IT Marketing QA /Cisco ODC/ Pune.

Duration: 15 months 11th January 2016 to 31st March 2017

Role : Project Lead

Technologies– Eloqua, SDFC, Cassandra, Hadoop(Big-Data).

Contribution / Highlights: For Eloqua tool implementation and data migration with NGCC, SFDC and development and building automation framework.

Key Result Areas:

- Project Management: Planning, scoping, effort estimation, tracking, creating and project, KPI setting, performance reviews (appraisals), mentoring & coaching, training.
- Proficiency in communication management tools (MS Office applications), project management tools

Project / Client Name / Location– Product Engineering Change (EC),SFDC/ CREE Ruud Lighting.

Duration: 24 months from 30th November 2012 to December 2015.

Role : Senior Test Lead

Technologies –Net Framework 3.5, TFS 2010, Oracle Apps(OM), SFDC, Maven, Git Stacks.

Contribution / Highlights: Involved in writing of Functional, Database test cases and business scenarios for Engineering Change (EC) applications and identify the area/gap for re-use .Net code to use as template in any other projects. Rresponsible for test planning, test cases writing, execution and develop automation test script and integrate with existing framework.

Project / Client Name/ Location – Annuity product (AQUA/WEQS) Quote Management /UK(Reading).

Duration : 2 years 6months from November 2009 to September 2012

Role : Senior Test Analyst

Technologies – Power Builder, Thunderhead, XML Spy, TOAD(Oracle), QC 10.2

Project / Client Name / Location /Role – Investec / CashTech GPS / SA and Pune.

Duration: : 10 months from Jan 2009 to October 2009.

Role : Sr. Test Lead

Technologies – Java, TOAD(Oracle), SOAP (SOA),Maven, SVN, ANT

Project / Client Name / Location /Role – Range Planner /Marks & Spencer / UK and Pune.

Duration: : 2 years 3 months from 24th Oct 2006 to Dec 2008.

Role : Test Analyst

Technologies – .Net Framework 2.0 , C#.Net, MS SQL, Mercury Quality Centre 8.2

Project / Client Name/ Location – eDeveloper & iBolt (EAI) product testing/ Magic Software / Pune,

Duration: 2 years and 6 months from January, 2004 to 14th June ,2006

Role: Database developer/Sr QC Engg.

Technologies : C++ lang, Oracle, MS SQL, DB2, eDeveloper, iBolt , xml file
