

Dedicated, organized, QA Expert with 16 years of design and implementation expertise, resulting in strong combination of technical skill and honed business sense. A natural leader with high degree of flexibility and a proven ability in managing small and large team.

Acquired good technical and functional skills, In-depth understanding of SDLC processes and Agile processes and worked in various phases of STLC. Well conversant with testing processes and techniques. Involved in managing and delivery testing projects from the scratch. Good domain knowledge into Banking, Insurance and Manufacturing.

QA software testing experience in leading large scale transformational, global change along with people management, delivery management in the domain of Cloud Web Application Testing, Microservices API Testing and Big data testing using AWS cloud services. End-to-end project experience including user needs analysis, gap analysis, design, implementation, framework selection, technology selection, QA process, defining milestone, release plan, production sanity testing maintenance, and upgrades. Hands on Testing Microservices, Data Pipelines, Machine Learning model performance testing and UI Functional Testing with proficiency in Manual and Automation testing using Cucumber (BDD) framework integration with Jira Xray.

Looking for Project Manager or Software Manager opportunity.

Professional Summary:

- 7+ years' experience as QA project lead. 9 years' experience in product testing.
- Global Exposure and experience in executing projects in countries - USA, UK, SA and India.
- 5 years' experience in Data centric, Data Migration, ETL testing, SFDC migration testing.
- 5 years of experience in Agile scrum methodology for software delivery.
- 5 years on experience into AWS development and Data Analytics/ML model testing.
- Extensive experience in project management including handling multiple projects. Experience in preparing quality graphs, budgets, risks, and mitigation plans.
- Expertise in Test Strategy /Approach, Test plan, create and execute test plans and test cases.
- Estimations for both manual and automation test development, deployment testing, microservices testing, regression testing, defect tracking, and team management.
- Expertise in coach team for framework development Data-Driven and Hybrid framework -using maven, Cucumber, Junit, Selenium Webdriver, AWS SDK Java.
- Expertise in Python scripting and Java programming for automation test development.
- Strong experience in Cucumber (BDD) Automation frameworks test development.
- Understanding and experience of automating REST API's testing using Postman Tool, Swagger, and Newman. Setup Non-Functional testing process -Performance testing, load testing
- Good hands-on implementation CI/CD using Jenkins/JFrog.
- Strong hands-on expertise in test automation End-to-End test framework development.
- Strong hands-on expertise in AWS cloud platforms and AWS cloud product testing.
- Hands-on experience in debugging the issue in complex/distributed enterprise product setup.
- Strong analytical and troubleshooting skills, including requirements analysis.
- Extensive hands-on Test Management tool QC, Test Director, Jira Xray, Rallydev.
- Good knowledge to set up to configure Jenkins, Docker containers on Windows and Linux.
- Experience in product/ system queries for UAT support - automation, documentation.
- Deep knowledge of automation best practices and integration with Splunk and SonarQube.
- Help identify and implement new process improvements.

Team Management:

- Manage end-to-end complex workstream and handling team size range 3 to 20 size.
- Strong interpersonal skills monitoring and mentoring & evaluate team performance.
- Excellent communication and leadership qualities with very good analytical capability
- Possessing a proven ability to lead project teams to successfully deliver agreed-upon solutions of the highest quality, often in complex and challenging customer environments.
- Experience in interacting with clients independently for daily/weekly/monthly status.
- Ability to manage and organised multiple priorities and projects coupled with the flexibility to adapt to changes in a fast-paced environment.

Total Work Experience (16 years):

Company Name	Name	From Date	To Date
Current Company	NICE Interactive Solutions India Pvt Ltd	10-April-2017	Till date
Previous Company	Zensar Technologies Ltd, Pune.	23-Oct-2006	03-April-2017
	Magic Software Enterprise India Pvt. Ltd. Pune	March-2004	14-Jun-2006

Competencies:

Category	Skills
Test /Defect Management Tool	Quality Centre 10.2, Test Director 7.3, Rational Test Manger, Clear Quest, TestLink, JIRA, Mantis and PVCS Tracker.
Automation Testing Tool	Selenium Webdriver 2.0, TestNG, QTP and SOAP UI Pro
DevOps (CI/CD, Artifactory)	Jenkins, JFrog, Git, SVN
Database	Oracle, MsSQL, DB2 and Pervasive SQL
Programming Language	AWS SDK Java, Python, Groovy,VB.Net,VB6,D2k,Foxpro
Other Supporting Software Tools	TFS 2010, VSS, XMLSpy, Star UML and TOAD, Postman Tool, Swager
Operating System	Windows, Linux & Unix.
Domain	Banking (Fraud, AML, Payment), Insurance (Annuities & Health), Retail, Manufacturing and Utility.
AWS Components / services	EC2,S3, IAM User, Group, Policy, Athena, API Gateway, DynamoDB, Lambda, Step Function, Glue, VPC, Subnet

Education:

- Pursuing PhD into Business Management from Nagpur University.
- Master's degree in Business Administration (MBA) from IGNOU University.
- Master's degree in Computer Management (MCM) from Nagpur University.
- Bachelor's Degree in Commerce from Nagpur University.

Certification:

- AWS Certified Developer - Associate certification.
- Certification VB.NET and ASP.NET from KICIT, Nagpur.
- Honors Diploma in System Management from NIIT, Nagpur.
- Certification "O" level from DOEACC, New Delhi.

Internal Companies Certification:

- NICE Certified Professional for IFM (Actimize) and E-RCM.
- Certificated Salesforce Certified Platform Developer.
- Zensar Certified Professional for Automation Test Engineer.
- Zensar Certified Banking & Insurance Domain Professional.

Professional Experience Project Detail:

Product Name /Team/Location –Actimize Watch IFM Fraud /AML Analytics R&D team/ Pune.

Duration: 4 years & 1 months from 10th April,2017 to till date.

Role : Project Lead /Senior Specialist QA Engineer

Technologies– AWS Cloud, micro service serverless, Python (Jupyter) , Java, Jenkins.

Contribution / Highlights: Involved in lead cloud Data Engg and Data Analytics team for Fraud (IFM) / Anti Money Laundering (AML) . Integration setup and configuration with CI/CD environment process. Machine learning ML model performance test result with different test data-set and new feature engineering. Hands on developing AWS cloud micro-service serverless testing framework.

- Understand security compliance, implementation of PCI, PII, GDPR protection regulation.
- Monitors project status on an ongoing basis necessary to meet project deadlines.
- Evaluating quality process, managing risks / issues, and taking corrective actions.
- Experience implementing AWS services and following 4N structure environment.
- Solid experience testing micro-service REST API server-less Fraud product.
- Work on EC2, ECS S3, DynamoDB, Lambda, IAM, Glue, Step function, API Gateway.
- Hands-on experience on KIs development and KIs testing for ML model.
- Tested score card model (IFM, JTA) - KNIME workflow.
- Hands-on Python packages like boto, boto3, Pandas, NumPy.
- Work on different stages of machine learning model testing.
 - Data preparation & data validation testing.
 - Data centric automation test development using AWS SDK Java Cucumber (BDD).
 - Data visualization using Tableau, Jupyter notebook.
 - Integration with TestNG, Splunk Report and Jira Xray with automation test development.
 - Integration with Pytest for unit test and generate SonarQube report.

Product Name /Team/Location – IT Marketing QA /Cisco ODC/ Pune.

Duration: 11 months 11th January 2016 to 31st March 2017

Role : QA Project Lead

Technologies– Eloqua, SFDC, Cassandra, Hadoop(Big-Data MapR), Selenium Webdriver, TestNG, ANT.

Contribution / Highlights: Involved in Eloqua implementation and data migration with NGCC,SFDC and develop the automation test scripts .Manage day-to-day test lead level activities. Did POC for Query Surge and Testing-Whiz tool for automating big data migration testing.

Project / Client Name / Location– **Product** Engineering Change (EC),SFDC/ CREE.

Duration: 24 months from 30th November 2012 to December 2015.

Role : Senior Test Lead

Technologies –Net Framework 3.5, TFS 2010, Oracle Apps(OM), SFDC, Maven, Git Stacks.

Contribution / Highlights: Involved in writing of Functional, Database test cases and business scenarios for Engineering Change (EC) applications and identify the area/gap for re-use .Net code to use as template in any other projects. Responsible for test planning, test cases writing, execution and develop automation test script and integrate with existing framework.

Project / Client Name/ Location – **Annuity product (AQUA/WEQS) Quote Management /UK(Reading).**

Duration : 2 years 6months from November 2009 to September 2012

Role : Test Lead /Senior Test Analyst

Technologies – Power Builder, Thunderhead, XML Spy, TOAD(Oracle), QC 10.2

Contribution / Highlights: Involved in Functional, Database, automation regression and System Integration testing of AQUA, WEQS the Annuity quote application which was based on the .Net framework. I was responsible for Test Planning, Review test scripts including test data creation, test execution, defect logging and tracking the same to closure.

Project / Client Name / Location /Role – Investec / CashTech GPS / SA and Pune.

Duration: : 10 months from Jan 2009 to October 2009.

Role : Sr. Test Lead

Technologies – Java, TOAD(Oracle), SOAP (SOA),Maven, SVN, ANT

Contribution / Highlights : Involved in automation functional test , database test, system integration testing and End to End test. To ensure the major testing for Global Payment Systems (GPS) payment processing implement for payments and credit/debit card transaction processing services. Software development of project in Agile Scrum methodology

Project / Client Name / Location /Role – Range Planner /Marks & Spencer / UK and Pune.

Duration: : 2 years 3 months from 24th Oct 2006 to Dec 2008.

Role : Test Analyst

Technologies – .Net Framework 2.0 , C#.Net, MS SQL, Mercury Quality Centre 8.2

Contribution / Highlights : Involved in functional, database, end to end and system integration testing to ensure the major testing of Range Planner application. Software development of project in Agile Scrum methodology.

Project / Client Name/ Location – eDeveloper & iBolt (EAI) product testing/ Magic Software / Pune,

Duration: 2 years and 6 months from January, 2004 to 14th June ,2006

Role: Senior QC Engineer (Database testing team)

Technologies : Oracle, MS SQL, DB2, eDeveloper, iBolt

Contribution / Highlights : Involved mainly in enterprise product testing , Functional, database and regression testing for database like Oracle, DB2 and MSSQL for eDeveloper 9.4 /10 enterprise product gateway testing.
