

Total 16 years of software development expertise, resulting in strong combination of technical skill and honed business sense. Dedicated, organized, Self –starter, with the flexibility to adjust to multiple demands, shifting priorities, ambiguity and rapid change. A natural leader with high degree of flexibility and a proven ability in managing large team.

Acquired good technical and functional skills, In-depth understanding of SDLC processes and Agile processes and methodologies Scrum & Kanban. Well conversant with development processes and techniques. involved in highly integrated, globally diverse cross team managing. Engaged with multi-functional and multi-regional teams to create impactful products and services for delivery in-time. Good domain knowledge into BFSI, Retail and Manufacturing.

Strong experience in leading large scale transformational, global change along with people management, delivery management in the domain of Cloud Web Application microservices development and Big data migration using AWS cloud services. End-to-end project experience including user needs analysis, gap analysis, design, implementation, framework selection, technology selection.

Professional Summary:

- Self-motivated and AWS professional with total 16 years of experience.
- 8+ years' experience as QA project lead. 9 years' experience in product development and lead.
- 5 years' experience in Data centric, Data Migration, ETL, SFDC migration and Application migration.
- 3+ years of experience into Python, AWS development and Data Analytics/ML model.
- 3+ years of Global exposure and experience in projects execution - USA, UK, SA and India.
- Strong hands-on in AWS cloud platforms PaaS and SaaS services development and implementation.
- Strong analytical and troubleshooting skills, including requirements analysis.
- Proficient in design and development of software products from requirement analysis to system study, designing, coding, debugging, documentation and implementation.
- Hands-on experience in debugging the issue in complex/distributed enterprise product setup.
- Develop ML data set processes, to create ML data models and ML data workflow.
- Evaluating existing data systems for data coding to ensure data-consistency.
- Implementing data strategies and developing physical data models.
- Updating and optimizing metadata design.
- Experience in leading complex projects involving multiple geographically dispersed teams and geographically separated client teams in 8 countries with different time zones
- Expertise in enterprises AWS development and Data Analytics/ML model testing.
- Experience in setting up new agile teams and transitioning teams from waterfall to agile
- Managed projects on due-diligence, POC development, application transition, application development, application maintenance, application support, e-learning, application audit and IM services,
- Good experience in setting up offshore development centres for first time offshoring clients by building big teams from ground up.
- Ability to lead cross-functional team members in a matrix managed environment to deliver project.
- Help identify and implement new process improvements.

Total Work Experience (16 years):

Company Name	Name	From Date	To Date
Current Company	NICE Interactive Solutions India Pvt Ltd	10-April-2017	Till date
Previous Company	Zensar Technologies Ltd, Pune.	23-Oct-2006	03-April-2017
	Magic Software Enterprise India Pvt. Ltd. Pune	March-2004	14-Jun-2006

Education:

- PhD into Business Management (Commerce faculty) from Nagpur University.
- Master's degree in Computer Management (MCM) from Nagpur University.
- Bachelor's Degree in Commerce (B.Com) from Nagpur University.

Certification:

- AWS Certified Cloud Practitioner
- Certification VB.NET and ASP.NET from KICIT, Nagpur.
- Honors Diploma in System Management (HSMP) from NIIT, Nagpur.
- Certification "O" level from DOEACC, New Delhi.

Internal Companies Certification:

- NICE Certified Professional for IFM (Actimize) and E-RCM implementation.
- Zensar Certified Banking & Insurance Domain Professional.

Technical Acquaintance:

Category	Skills
Database	Oracle, MsSQL, DB2, and Hive, parquet
AWS Cloud	EC2,S3, IAM User, Group, Policy, Athena, API Gateway, DynamoDB, Lambda, Step Function, Glue pySpark, VPC, SQS
Domain	Banking (Fraud, AML, Payment), Insurance (Annuities & Health), Retail, Manufacturing and Utility.
Web Servers	Apache Tomcat, WebSphere.
Programming Language	AWS SDK Java , Python, VB6,D2k,Foxpro, Groovy.
Test /Defect Management Tool	Quality Centre , TestLink, JIRA.
IDE & Tools	Eclipse, SQLDeveloper, Microsoft Visio, xcode, IntelliJ, Visual Studio , Postman , SoapUI
DevOps (CI/CD, Artifactory)	Jenkins, JFrog, Git, SVN
Operating System	Windows, Linux & Unix.
Machine Learning Algorithm	XG Boost, Random Forest, Isolation Forest, Linear Regression
ETL Development & Testing tools	KNIME workflow ,Informatica, Testing Whiz,QuerySurge
Code Quality Tools	SonarQube, FindBugs, Splunk
SDLC models	Agile (Scrum .XP & Kanban), Waterfall, RAD
Programming Framework	Spring Boot ,Minos
Big data Framework	Spark, Apache Hadoop

Professional Experience Project Detail:

Product Name /Team/Location –Actimize Watch IFM Fraud /AML Analytics R&D team/ Pune.

Duration: 4 years & 1 months from 10th April,2017 to till date.

Role : Project Lead /Manager

Technologies– AWS Cloud, micro service serverless, Python (Jupyter) , Java, Jenkins.

Key Result Areas:

- Proficiency in communication management tools (MS Office applications), project management tools (Jira, Bizwiz), Agile tools like Jira and Confluence, awareness of DevOps tools like Teams, Jenkins, Docker, Github and Jira.

Involved into enterprise cloud Data Engg and Data Analytics development for Fraud (IFM) / Anti Money Laundering (AML) . Integration setup and configuration with CI/CD environment process. Machine learning ML model performance test result with different test data-set and new feature engineering. Hands on developing AWS cloud micro-service project handling.

- Understand security compliance, implementation of PCI, PII, GDPR protection regulation.
- Monitors project status on an ongoing basis necessary to meet project deadlines.
- Evaluating quality process, managing risks / issues, and taking corrective actions.
- Experience implementing AWS services and following 4N structure environment.
- Solid experience in micro-service REST API server-less development for Fraud analytics.
- Strong knowledge of S3, DynamoDB, Lambda, IAM , Glue, Step Function, API Gateway.

Product Name /Team/Location – IT Marketing QA /Cisco ODC/ Pune.

Duration: 15 months from 11th January 2016 to 31st March 2017

Role : Senior Developer, Code reviewer

Technologies– Eloqua, SFDC, Cassandra, Hadoop(Big-Data).

Contribution / Highlights: A common platform for Cisco marketing team to identify lead, contact, Account, case for new service or product using different data set from Eloqua tool implementation and data migration with NGCC, SFDC and development and building filter on multiple web portal like search engine.

Key Result Areas:

- Understanding process requirements and providing use cases for business.
- Interacting with users for requirement gathering; preparing functional specifications and low-level design documents
- Working with product management and engaged internal customers to understand requirements and gather feedback on solutions
- Performing analysis, design, verification, demonstration and maintenance of products in a process-driven, team environment.
- Steering improvement initiatives with focus on streamlining and managing processes with proactive planning, introduced new concepts.

Project / Client Name / Location– Product Engineering Change (EC),SFDC/ CREE Ruud Lighting.

Duration: 24 months from 30th November 2012 to December 2015.

Role : DB developer / Senior Test Lead

Technologies –Net Framework 3.5, TFS 2010, Oracle Apps(OM), SFDC, Maven, Git Stacks.

Contribution / Highlights: Involved in development of Functional, technical, database model define and business scenarios for Engineering Change (EC) applications and identify the area/gap for re-use .Net code to use as template in any other projects. Developing a web project where all the properties will be stored and customer can update, edit or add properties from a web console. Part of development team for multiple small-scale Spring project to integrate with BPM system and micro services.

Key Result Areas:

- Developing software solutions by studying existing legacy application information.
- Understanding of ETL and DB migration existing legacy system. new SFDC DB Data modelling by studying information needs, conferring with users, studying systems flow, data usage on production.

Project / Client Name/ Location – Annuity product (AQUA/WEQS) Quote Management /UK(Reading).

Duration : 2 years 6months from November 2009 to September 2012

Role : Senior Test Analyst

Technologies – Power Builder, Thunderhead, XML Spy, TOAD(Oracle), QC 10.2

Project / Client Name / Location /Role – Investec / CashTech GPS / SA and Pune.

Duration: : 10 months from Jan 2009 to October 2009.

Role : Sr. Test Lead

Technologies – Java, TOAD(Oracle), SOAP (SOA),Maven, SVN, ANT

Project / Client Name / Location /Role – Range Planner /Marks & Spencer / UK and Pune.

Duration: : 2 years 3 months from 24th Oct 2006 to Dec 2008.

Role : Test Analyst

Technologies – .Net Framework 2.0 , C#.Net, MS SQL, Mercury Quality Centre 8.2

Project / Client Name/ Location – eDeveloper & iBolt (EAI) product testing/ Magic Software / Pune,

Duration: 2 years and 6 months from January, 2004 to 14th June ,2006

Role: Database developer/Sr QC Engg.

Technologies : C++ lang, Oracle, MS SQL, DB2, eDeveloper, iBolt , xml file

Personal Details:

Actual Name		Ashish Ravindra Soni
Date of Birth		26th September,1978
Marital Status		Married
