

Dedicated, organized, project manager with 17+ years of design and implementation expertise, resulting in strong combination of technical skill and honed business sense. A natural leader with high degree of flexibility and a proven ability in managing small and large team.

End-to-end project management experience to manage projects on due-diligence, POC development, application transition, POC development, QA process and tool selection, defining milestone, release management plan, production sanity testing , application maintenance, and upgrades. Hands on development and Testing of Microservices, Data Pipelines, ML model performance testing with proficiency in Automation testing using Cucumber (BDD) framework integration with TestNG, Junit, Jira Xray.

Experience in leading large scale transformational, global exposure in executing projects from multiple and different geographic location- USA, UK, SA, Israel and India. Acquired good technical and functional skills, In-depth understanding of SDLC processes and Agile processes and worked in various phases of STLC.

Delivery management in the domain of Cloud Solution development of microservices API and Big data migration testing solution. Well conversant with testing processes and techniques. involved in managing and delivery testing projects from the scratch. Good domain knowledge into Banking, Insurance and Manufacturing.

Professional Summary:

- Working as a Project Manager for past 8 years handling multiple teams.
- Experience in Agile Scrum /Kanban methodology and practices for software development.
- Hands on experience in AWS cloud product platform and solution building
- Hands on experience in. microservices development, Data Analytics solution and product testing.
- Hands on expertise in setting up DevOps automation using tools – Jenkins SonarQube , Splunk
- Hands-on experience in debugging the issue in complex enterprise cloud product setup.
- Hands on experience in in SQL/PL-SQL, Rest API Services
- Hands on experience on debugging the issue in complex/distributed enterprise product setup.
- Strong hands-on in Application migration, Data migration, ETL testing, SFDC migration testing.
- Experience in following governance regulatory and compliance in Banking domain for US and EMEA.
- Experience in enterprise product operation & big-data management capability for Fraud/AML solution.
- Experience with automate REST API testing using Postman Tool, Swagger.
- Experience in Cucumber (BDD) automation frameworks development.
- Strong hands-on experience in automation test and coach team in building Data Driven and Hybrid framework -Maven, Selenium Web-driver, AWS SDK Java.
- Exposure to product/ system queries for UAT testing - activities are delivered to high-level of quality.
- Experience in Python test automation development, Performance testing & Load testing.
- Strong hands on experience in Test Management tool QC, Test Director, Jira Xray, Rallydev.
- Deep knowledge of automation best practices and integration with Splunk and SonarQube.
- Experience in AWS cloud containerized advance ML model testing.
- Experience in verification and validation of advance Machine learning applications.
- Ability to work independently & challenge the line of business with the gaps and high light risk.

Team Management:

- Manage end-to-end complex workstream and handling team size range 15 to 20 size.
- Strong interpersonal skills monitoring and mentoring & evaluate team performance.
- Excellent communication and leadership qualities with very good analytical capability
- Possessing a proven ability to lead project teams to successfully deliver agreed upon solutions of the highest quality, often in complex and challenging customer environments.
- Experience in interacting with client independently for daily/weekly/monthly status.
- Accountable for define Test strategy and execution of testing with senior stakeholders.
- Strong interpersonal skills monitoring and mentoring & evaluate team performance.
- Collaborates with client leads and partners with business users and lead cross team delivery.
- Strong relationship and interacting with clients independently for product delivery status.

Total Work Experience :

Company Name	Name	From Date	To Date
Current Company	NICE Interactive Solutions India Pvt Ltd	10-April-2017	Till date
Previous Company	Zensar Technologies Ltd, Pune.	October-2006	03-Apr-2017
	Magic Software Enterprise India Pvt. Ltd. Pune	March-2004	June-2006

Competencies:

Category	Skills
Project Management Tools	Jira , Ms Office, Servicenow, BizWiz, GitLab, Teams, Tracker, Confluence
Programming Language	AWS SDK Java, Python, Groovy, VB.Net, VB6, D2k, Foxpro
DevOps (CI/CD, Artifactory)	Jenkins, Terraform, JFrog, GitLab, SonarQube, Splunk
Database	Oracle, MsSQL, DB2 and Pervasive SQL
Other Supporting Software Tools	TFS 2010, VSS, XMLSpy, Star UML and TOAD, Postman Tool, Swager
Operating System	Windows, Linux & Unix.
Domain	Banking (Fraud, AML, Card & Payment), Insurance (Annuities & Health), Retail, Manufacturing and Utility.
Test /Defect Management Tools	Jira ,Quality Centre, Test Director, Rational Test Manger, Clear Quest, TestLink, , Mantis and PVCS Tracker.
Automation Testing Tool	Selenium Webdriver, TestNG, QTP and SOAP UI Pro
AWS component / resources	EC2, S3, IAM User, Group, Policy, Athena, API Gateway, DynamoDB, Lambda, Step Function, Glue, VPC, Subnet

Education:

- Pursuing Master's degree in Business Administration (MBA) from IGNOU Delhi.
- PhD into Business Management from Nagpur University.
- Master's degree in Computer Management (MCM) from Nagpur University.
- Bachelor's Degree in Commerce from Nagpur University.

Certification:

- Certification VB.NET and ASP.NET from KICIT, Nagpur.
- Honors Diploma in System Management from NIIT, Nagpur.
- Certification "O" level from DOEACC, New Delhi.

Internal Companies Certification:

- NICE Certified Professional for IFM (Actimize) and E-RCM.
- Certificated Salesforce Certified Platform Developer.
- Zensar Certified Professional for Automation Test Engineer.
- Zensar Certified Banking & Insurance Domain Professional.

Professional Experience Project Detail:

Product Name /Team/Location –Actimize Watch Data Analytics R&D team/ Pune.

Duration: 10th April,2017 to till date.

Role : Tech Manager for DeOps Expert and QA Expert

Technologies– AWS Cloud, micro service serverless, Python (Jupyter) ,PySpark, Java, Jenkins.

Key Result Areas:

Project Management: Planning, scoping, effort estimation, tracking, creating and project, KPI setting, performance reviews (appraisals), mentoring & coaching, training.

Projects: Managed projects on due-diligence, POC development, application transition, application development, application maintenance, application support and resource augmentation using various technologies (Java, Python & AWS Cloud)

Proficiency in communication & management tools: Ms Office tool,Jira, Bizwiz , Agile tools like Jira and Confluence, awareness of DevOps tools like Teams, Jenkins, Docker, Github and Jira.

Account Management: Delivery, stakeholder, governance, and escalation management.

Key Result Areas:

Project Management: Planning, scoping, effort estimation, tracking, creating and project, KPI setting, performance reviews (appraisals), mentoring & coaching, training.

Contribution / Highlights: Involved into enterprise product cloud Data Engg and Data Analytics development for Fraud (IFM) / Anti Money Laundering (AML). Integration setup and configuration with CI/CD environment process. Machine learning ML model performance test result with different test data-set and new feature engineering. Hands on developing AWS cloud micro-service project handling.

- Implementation of compliance and implementation of PII, GDPR data protection regulation
- Monitors and product status on an ongoing basis necessary to meet project deadlines.
- Evaluating quality process, managing risks / issues, and taking corrective actions.
- Experience implementing AWS services and following 4N structure environment.
- Solid experience in micro-service REST API server-less development for Fraud analytics.
- Manage the testing artifacts and product delivery report on testing activity and metrics.
- Strong knowledge of AWS cloud 35 resources and services.

Product Name /Team/Location – IT Marketing QA /Cisco ODC/ Pune.

Duration: January 2016 to 31st March 2017

Role : QA Project Lead

Technologies– Eloqua, Oracle, Cassandra, Hadoop (Big Data), Selenium Webdriver, TestNG, ANT.

Contribution / Highlights: Involved in Eloqua implementation and data migration with SFDC and develop the automation test scripts .Manage day-to-day test lead level activities. Did POC for Query Surge and Testing-Whiz tool for automating Big Data testing.

- Project planning, PI planning, Test estimation, Team handling and monitoring.
- Evaluation of automation big-data migration testing tool Query Surge
- Integration of Oracle with Big-data data validation Pre and Post migration

Project / Client Name / Location– Product Engineering Change (EC), SFDC migration / CREE.

Duration: 30th November 2012 to December 2015.

Role : Senior Test Lead

Technologies –Net Framework 3.5, TFS 2010, Oracle Apps(OM), SFDC, Maven, Git Stacks.

Contribution / Highlights: Involved in writing of Functional, Database test cases and business scenarios for Engineering Change (EC) applications and identify the area/gap for re-use .Net code to use as template in any other projects. Responsible for test planning, test cases writing, execution and develop automation test script and integrate with existing framework.

Project / Client Name/ Location – Annuity product (AQUA/WEQS) Quote Management /UK(Reading).

Duration : March 2009 to September 2012

Role : Test Lead /Senior Test Analyst

Technologies – Power Builder, Thunderhead, SOAP UI, XML Spy, TOAD(Oracle), QC 10.2

Contribution / Highlights: Involved in Functional, Database, automation test development and System Integration testing of AQUA, WEQS the Annuity quote application which was based on the .Net framework. I was responsible for Test Planning,

Project / Client Name / Location /Role – Range Planner /Marks & Spencer / UK and Pune.

Duration: : Oct 2006 to Feb 2009.

Role : Test Analyst

Technologies – .Net Framework 2.0 , C#.Net, MS SQL, Mercury Quality Centre 8.2

Contribution / Highlights : Involved in functional, database, end to end and system integration testing to ensure the major testing of Range Planner application. Follow Agile Scrum methodology –attend daily scrum meeting,

Project / Client Name/ Location – eDeveloper & iBolt (EAI) product testing/ Magic Software / Pune,

Duration: March 2004 to 14th June ,2006

Role: QC Engineer (Database testing team)

Technologies : Oracle, MS SQL, DB2, eDeveloper, iBolt

Contribution / Highlights : Involved mainly in enterprise product testing , Functional, database and regression testing for database like Oracle, DB2 and MSSQL for eDeveloper 9.4 /10 enterprise product gateway testing.
